MTB

A very varied circuit around the entire Valle dei Laghi
 After setting off in Vezzano, descend via Fraveggio and Padergnone to Lago di Toblino until you reach the eponymous castle, which sits enthroned on a rocky promontory in the lake. A steep climb then begins up a tarmacked minor road (closed to traffic) to Ranzo, a somewhat remote village, but all the better for it. A spectacular road carved through the rock takes you back to the valley floor and you then head north-east through the villages of Lon, Ciago and Covelo until you reach Monte Terlago, changing several times between road, forest track and simple trail. The route becomes a bit more difficult shortly before the idyllically situated Lago di Lamar and shortly before the village of Terlago. After Lago di Terlago, you then continue along a cycle path back to the starting point in Vezzano.
